

## Directives (EC) 1907/2006 (REACH), 2011/65/EU (RoHS) and (EU) 2015/863

The Directives (EC) 1907/2006 (REACH), 2011/65/EU (RoHS) and (EU) 2015/863 determine the regulations for restricting the use of substances of very high concern.

As a "downstream user" in accordance with REACH, Heinz Marchel GmbH & Co. KG is not responsible for the pre-registration and registration of substances.

According to Article 33 of the REACH regulation, however, we can make the following statement for our standard gas fittings delivery program: according to our knowledge, the products are, with the exception of the following, products that do not exceed the specified concentration limit of 0,1 %.

In case of products KP100, RF100, VE2, MAV16270, KH-F < DN 32, DM, VAS, VK and KA materials are used that can contain lead, CAS number 7439-92-1, EC-number 231-100-4, Toxic to reproduction (Article 57c) as an alloy component in a concentration > 0,1 %.

You can find these products in our current delivery program on pages 19-21 and 31-36.

Lead is not released when products are used as intend.

The max. permissible substance restrictions according to 2011/65/EU (RoHS) and (EU) 2015/863 are complied with, taking into account the applicable exception 6c according to Annex 3 of the Directive.

For safe handling of the products, please refer to the relevant installation and operating instructions.

The published ECHA candidate list can be viewed on  
([http://www.echa.europa.eu/chem\\_data/candidate\\_list\\_table\\_en.asp](http://www.echa.europa.eu/chem_data/candidate_list_table_en.asp)).
